

Help is Available

These professional counselling services are available now. They are confidential and free of charge for all Members and their families, 24 hours a day 7 days a week.

Note that coverage is not directly connected to the benefits programs through Canada Life. The Local felt that it should be open to all members and their families.

The coverage for the member and immediate family is 12 units available per year which means 12 - 1 hour sessions per person in the family. Additional assistance may be allocated on a per case basis, if Homewood feels it would be beneficial.

If you need help navigating this assistance, please phone our Benefit Plan Administrator, Dee Picciano at drs@iatse212.com.
